

# CLOUD HOSTING

If you're serious about having a website, you need rock solid hosting to keep it online. Our cloud hosting doesn't rely on a single server and can scale easily as your business grows.

It's powered by AWS, the same platform that sites like Netflix and Expedia run on. Perfectly optimised for WordPress, we'll suggest the right plan for you depending on the size of your site.

 Switching from another company? Just ask us for a site migration quote

## Key Features - All Plans

✓ Hosted in UK & Ireland

*Our servers are located here in the UK & Ireland for fast response times.*

☁ Automated Backups

*For extra peace of mind should the worst happen to your site.*

🔧 Optimised for WordPress

*Our geeks have tweaked our setup so your WordPress site runs like clockwork.*

🛡 Disaster Recovery Built-in

*Your site will auto-switch to another data centre if there's a hardware failure.*
